Percentage: 79.4

WORK EXPERIENCE

Bharat Intern   **Remote**
Web Development Intern   July 2023 - August 2023
- Demonstrated strong skills in web development by creating projects such as a Netflix homepage clone, a temperature converter, and an AI SaaS platform.
- Utilized a tech stack encompassing HTML, CSS, JavaScript, React, Next.js, Shadcn UI, and incorporated OpenAI technologies, showcasing versatility and adaptability.
- Ensured optimal user experience across diverse devices through the implementation of responsive design principles in all projects.

PROJECTS

Personal Blog Website
- The homepage displays all blog posts. The website utilizes JWT authentication for security.
- Users can create, read, update, and delete blog posts reflected on the homepage.
- The technologies used to build the website are React, CSS, MongoDB, ExpressJs.

Fit Fusion
- This web application allows users to explore a vast library of over 1,000 exercises, categorized by muscle group for targeted workouts.
- Each exercise includes clear examples, details, and related YouTube videos for guidance.
- The technologies used to build the website are ReactJS, CSS, API and Material UI.

SKILLS

Languages: C++, JavaScript
Technologies: React, Node, Express, Tailwind CSS, MongoDB, MySQL, Git, Github, REST API, HTML, CSS
Concepts: Data Structure and Algorithms, OOPs, SDLC
